## PRESSO ULTRALIGHT SPINNING RODS

These superior ultralight actions come in lengths up to 8' for a combination of casting power with light lures—shock absorbing action to handle strong fish on ultra-fine lines. Micro-pitch tapping of the blank during curing assures even distribution of resin and graphite for maximum power and sensitivity.

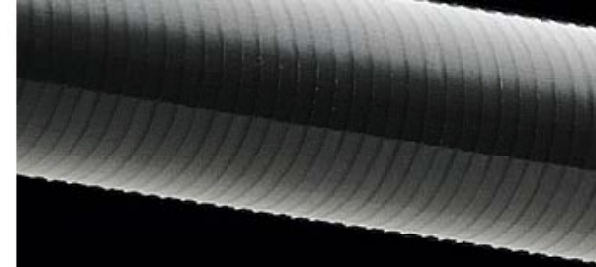

Minima black ring guides.

ULTRALIGHT PACK RODS Presso Four-Piece Ultralight Spinning Pack Rods.

#### MICRO PITCH BLANK TAPING

Fine-pitch taping during the curing process means a denser blank with even distribution of resin within the graphites. A natural, un-sanded finish combines maximum strength and stability with lighter weight and increased sensitivity.

#### PRESSO ULTRALIGHT SPINNING RODS FEATURES:

- » IM-7 Graphite construction
- » Micro pitch blank taping
- » Minima reel seat with machined clamp nut, woven graphite insert
- » Minima black ring guides
- » Lightweight split grip cork handles
- » Hook keeper
